COMPASSIONATE CARE WITH PASSION

Hello neighbors, friends & fellow veterans. I found a home where I do not have to worry about cooking a good meal because I couldn't stand long enough to prepare one. I found a home where I do not have to worry about falling while taking a shower, a home where I get loving care that I couldn't get while living alone. A home that helps where I need it the most.

I, like some of you, might find yourself a little hesitant to ask for the kind of assistance that is offered here, but in short order I found that bit of reluctance become history.

My meds are brought to me with a smile and a question asking me what I might need to make my "rest of the day" a better one. A veteran friendly place operated by "We the People", where I can fly my flag on my wheelchair and receive a grateful "thank you" for my service.

Alice, our Administrator has put together a fantastic staff. Hyla, Nursing Director keeps the RN's and CNA's on top of their game. Jackie, the driving force of the Rehab specialists. Nikki, the top chef. Brittany, the creator of many fun activities. Melody, the dietitian that keeps the necessary vitamins, minerals and protein in fine perspective regarding one's individual requirements, and a host of dedicated staff, maintaining housekeeping, laundry, records, and greeting visitors with a smile and a kind voice, making sure all social and recreational needs are met. I love my new home and quite sure that I made the right decision to reside here. Come join us. Article submitted by Doc Husser, resident; pictured below.

Veterans Day
November 11
